How can I help today?

V

Good to see you! I noticed you left **Local Experiences 26** in your cart a few weeks ago – would you like to finish that, or shall I help you with something else today?

By the way, **Delivery 29** is picked for you and currently 20% off at 18.13 DEMO_UNITS, well within your usual budget.

I'm looking for something for my kitchen

V

Perfect! Since you're looking for kitchen items, I can help you find something that fits your quality preference and budget.

What are you most interested in – **cookware, small appliances, storage solutions**, or something else? And is your usual budget of around **30 DEMO_UNITS per item** still good for this?

"That's too expensive. My budget is now 100, and I don't want the first option."

V

Got it – budget updated to **100 DEMO_UNITS** and I've removed Delivery 29 from consideration.

Here are two great kitchen options for you:

Option 1: Kitchen 34 – 89.40 (was 127.72, **30% off**). Quality tier 4, practical and premium style. Matches your usual quality preference.

Option 2: Kitchen 20 – 88.35 (was 126.21, **30% off**). Quality tier 5, creative and family-friendly. Top-tier quality at a great discount.

Both are well within your budget. Would either of these work for you?
